

## Overview of Study Programmes and Fields of Study at FCE

<b>Degree</b>	<b>BACHELOR´S (Bc.)</b> 4 years	
<b>Study Programme</b>	<b>Civil Engineering</b>	<b>Architecture and Construction</b>
<b>Fields of Study</b>	Building Constructions	Architecture and Construction
	Building Environment	
	Building Materials and Diagnostics of Structures	
	Building Structures	
	Facility Management	
	Geotechnics	
	Municipal Engineering	
	Municipal Engineering and Construction	
	Preparation and Realization of Construction Works	
	Traffic Engineering	
Transport Constructions		
<b>Degree</b>	<b>MASTER´S (Ing.)</b>	
<b>Study Programme</b>	<b>Civil Engineering</b> 1,5 year	<b>Architecture and Construction</b> 2 years
<b>Fields of Study</b>	Building Constructions	Architecture and Construction
	Building Environment	
	Building Materials and Diagnostics of Structures	
	Geotechnics	
	Municipal Engineering and Construction	
	Realization of Constructions	
	Industrial and Building Constructions	
	Traffic Engineering	
Transport Constructions		
<b>Degree</b>	<b>DOCTORAL (Ph.D.)</b> 3 years	
<b>Study Programme</b>	<b>Civil Engineering</b>	
<b>Fields of Study</b>	Geotechnics	
	Mining and Underground Engineering	
	Theory of Constructions	
	Municipal Engineering and Construction	

**Fields of Study Fully in English**
